Speak on your phone. Post everywhere.

The publishing layer in front of the networks you already use.

You already know what to say. You freeze when five apps want five captions. Brand Studio sits in front of Instagram, TikTok, X, Facebook, and LinkedIn. **Talk once. Get posts in your voice. Share today. Schedule when you want.** We do not own a social network. We feed the ones you already have.

WHO IT IS FOR

One type of person: talks better than they type, posts on more than one platform, has no marketing hire. Three buying faces of that same person.

BUYER	THEY ARE	WHAT BREAKS	THE LINE
SMB owner	Salon, gym, trades, café, coach. The brand is them.	Talks to customers all day. Never posts. No time at a desk.	Speak what you would say over the counter.
Network marketer	Distributor or upline. Strong on calls.	Daily content grind. Copy-paste scripts. Sounds like everyone else.	Speak a real story once. Ship authentic posts all week.
Solo creator	Fitness, builders-in-public, niche educators.	Hook is clear out loud. Caption dies in a blank box.	Talk the idea. Get a native post for each app.

Start here

SMBs and network-marketing uplines pay because posting is the job, not a hobby. Uplines also distribute: one demo, a team of invites.

Creators are the story you tell in ads. They convert later.

Not for

Social teams that already live in Buffer and only need a calendar. Agencies that want dashboards. People who post to one app from a laptop and like writing.

Buffer schedules what you already wrote. ChatGPT ends at copy. CapCut finishes the video. We finish the caption stack and the ship button.

15-SECOND VERSIONS

ANYONE

Brand Studio is Uber for social posts: biggest publishing surface, no social network. You speak an idea on your phone and get posts for every platform in your voice.

OWNER-OPERATOR

You are the brand. You do not have a marketer. Speak what you would tell a customer. Get Instagram, Facebook, TikTok, LinkedIn posts in your voice.

NETWORK MARKETER

You can pitch on a call. Daily content is the grind. Speak a product or recruiting story once. Get posts for every platform without sounding copy-paste.
